## **Maintenance Foreman**

### **Burgettstown, PA**

Union Electric Steel Corporation is looking for a dynamic Maintenance Foreman to join our team in Burgettstown, Pennsylvania.

Melting, forging, and rough machining operations have been conducted at the Harmon Creek plant in Burgettstown, Pennsylvania since its opening in December 1966. We maintain precise control of our melting and vacuum degassing operations, meeting the most demanding metallurgical requirements. The use of either our 3,000 ton or 5,000 ton forging press optimizes the structure and properties of the forged blank, producing the highest quality, capable of meeting the most demanding standards.

The successful candidate will have experience in reliability centered maintenance (RCM) and also with problem-solving techniques, failure mode effects analysis. He/she will have a minimum of three (3) years of maintenance management/supervisory experience along with a background in industrial electricity. B.S. in engineering related field is preferred.

In addition, the successful candidate will have three to five (3-5) years of direct experience improving mean times between failures, working on reliability issues, and supervision of maintenance employees (electrical/mechanical) in a unionized environment.

If you have the requirements we seek, please send your resumes along with cover letter, and starting salary range requirements. Only those responses with the required information will be considered.
