

Union Electric Steel Corporation, Since 1923

Corporate Maintenance and Reliability Engineer Carnegie, PA

Union Electric Steel Corporation is looking for a dynamic Corporate Maintenance and Reliability Engineer to join our team in Carnegie, Pennsylvania.

The Corporate Maintenance and Reliability Engineer will partner with the operating teams of UEA to build a Maintenance Reliability platform based on Total Productive Maintenance principles to drive both performance and maximize value. The main purpose of this role is to ensure that operating teams deliver the required function and level of performance in terms of service or production, in a sustainable manner, at an optimum whole life cost without compromising health, safety, environmental performance, or the organization's reputation. This role reports to the Director of Engineering.

The successful candidate will be responsible for reliability centered maintenance (RCM) and will have experience with problem-solving techniques, failure mode effects analysis. He/she will also have a minimum of 3 years of maintenance management/supervisory experience.

In addition, the successful candidate will have a BS Degree in Engineering coupled with 3-5 years of direct experience improving mean times between failures, working on reliability issues, and interface directly with plant managers and senior management.

If you have the requirements we seek please send your resume along with cover letter starting salary range requirements. Only those responses with the required information will be considered.
